The 5-year average time for 5A-I and 5A-II is calculated using 12th place from finals of the 5A State Championship for 2003 and 2004, along with Division I or Division II, respectively, for 2005, 2006, and 2007. The calculation rounds to the nearest hundredth. If the calculation instead truncated digits after hundredths some results would be faster by 0.01 second.
